

Move seats if you...

An activity for quickly rearranging children away from friendship groups etc to help the group remain sensible and focussed within Circle Time. It also an easy way for the children to begin sharing personal information.

Examples - Move seats if you:

- had toast for breakfast
- are wearing black socks
- have blue eyes
- have a pet
- watched TV last night
- have been to the seaside this year
- are right handed
- walk to school
- have been to the dentist this year
- have a brother
- like vanilla ice cream
- are scared of spiders

What do you do when children you want to separate remain together after a few moves?

- Exploit differences in what they are wearing, physical appearance or any other personal information.
