

# New Teacher

- Most of the time the same teacher works with a class for the whole school year. But sometimes there is a change of teacher at a different time.
- When a new teacher takes over a class they may often do things differently to the previous teacher. For example they may:
  - ★ have slightly different ways of teaching
  - ★ make changes to the class rules
  - ★ not know everyone as well as the previous teacher
- Having a new teacher may feel a little uncomfortable at first but you will be OK. You will get used to the new teacher like you got used to the previous teacher.
- Things that can help include:
  - ★ listen carefully to what the new teacher says as things may be different
  - ★ if you are unsure check what you need to do
  - ★ give the teacher time to get to know everyone
  - ★ talk to someone if you are worried
  - ★ do things that help you stay calm
- It can sometimes feel uncomfortable to have a change of teacher. They may do things differently but you will be OK.
